

The iQ concept
“The best flooring solution on
the market – for both performance
and economy.”

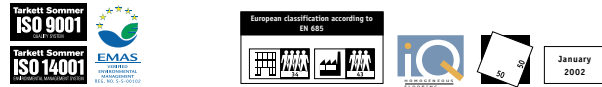

Stone is an iQ flooring from Tarkett Sommer

Stone is one of our iQ floorings, which means it has many more advantages than can be seen with the naked eye. We all know that there are a lot of vinyl floorings on the market, and many of them look similar. But appearances can be deceptive. The differences in performance and properties can be huge. For top performance in every function that a floor has to provide, Tarkett Sommer's range of homogeneous high quality floorings is really outstanding. These floorings are called iQ – intelligent quality – and they are one of the smartest choices you can make when buying flooring. Not only for quality, performance and design, but also for the best life cycle cost on the market.

- High quality raw materials
- PUR reinforcement
- Superior cleaning characteristics

This means the absolute minimum of heavy, wet cleaning. No polish or wax is ever needed – just dry-buffing* – throughout the lifetime of the flooring. You not only save time and money. Much less water and chemicals are also powerful environmental considerations.

*Provided the instructions in Tarkett Sommer's cleaning system are followed.

Stone

This new generation is a technical development based on a unique press technique. The inclusion of real mother-of-pearl sets a new standard in design of commercial vinyl floorings. Suitable for most demanding applications such as shops, stores, hotels and similar.

Tarkett Sommer is one of the world's leading and most experienced floorcovering manufacturers. For more than 110 years, we have produced new flooring materials based on market realities. We have looked, listened, tested and developed. This has given us great experience and expertise in most types of flooring materials: resilient heterogeneous flooring, resilient homogeneous flooring, natural floorings like linoleum and wood, polyolefin flooring, laminate flooring, textile flooring, wood flooring and wetroom floor- and wall coverings. This makes us virtually unique in being able to offer practically all types of floorcovering solutions.

Homogeneous vinyl flooring

Unique appearance
Striking design effects
Lowest life cycle cost
Tiles

Tarkett Sommer

“Welcome to the new design
generation of vinyl floorings.”

Puts fashion into flooring

Imagine a flooring that shimmers and sparkles like mother-of-pearl, with genuine emotion and a striking depth of pattern image. So elegant, and yet so primordial. As a true aesthete you can only sigh with sheer delight. Slow down and take a look at Stone from Tarkett Sommer – a leader of the new design generation of vinyl flooring.

Unique design effects

For over 50 years, we have been developing new homogeneous vinyl floorings based on people's needs. With Stone, we have taken a new step in design based on a unique press technique and inclusions of real mother-of-pearl. The extraordinary depth of pattern image puts Stone in a class of its own.

A genuine stone look

The stone look is fashionable and can be used to create a distinctive and unique ambience in many different areas. The different blacks and whites of Stone from Tarkett Sommer give you the feel of real stone flooring. However, Stone has many advantages over real stone.

- Impact sound reduction for comfort
- Better safety underfoot thanks to appropriate friction
- Flexible material, withstands movements in the floor beneath
- Simpler and quicker installation
